

Luke Woodhatch

Support & Community Ops — Crypto-native

Tulum, Mexico (US hours) · Remote | luke@sundaysociety.xyz | [linkedin.com/in/lukewoodhatch](https://www.linkedin.com/in/lukewoodhatch) | sundaysociety.xyz

SUMMARY

Support leader with 8+ years building support orgs from scratch for technical products — hardware, web3, consumer. Built and ran a 24/7 team holding 95%+ CSAT on thousands of weekly tickets; final escalation for onchain disputes and security incidents; trading onchain since 2017; builds internal tooling with AI.

EXPERIENCE

Independent — Sabbatical, building with AI Nov 2025 – Present

- Shipped ats.fyi, a live job board aggregating Ashby, Lever, and Greenhouse listings across 200+ startups.
- Daily hands-on with AI dev tooling (Cursor, Claude Code); designed and built sundaysociety.xyz end to end.
- Building Touchline, a Chrome extension overlaying Fantasy Premier League analytics on the official site (in progress).

Magic Eden — Business Development Manager May 2025 – Nov 2025

- Ran the migration of Slingshot's user base into Magic Eden post-acquisition, keeping ticket resolution on track throughout the transition.
- Final escalation point for complex onchain disputes — diagnosed via block explorers and transaction logs, then coordinated fixes with engineering.
- Maintained ecosystem partner, exchange, and influencer relationships; monitored channels for scams and impersonation during the high-visibility transition.

Slingshot Finance — Community Manager (*acquired by Magic Eden*) Mar 2023 – May 2025

- Tier 3 escalation for a multi-chain trading app: transaction logs, browser devtools, and detailed reproduction steps filed to engineering.
- Led incident response for executive account compromises and phishing campaigns, coordinating comms across Discord, Telegram, and Twitter.
- Drove trader and KOL acquisition during the pivot from DEX aggregator to trading app — cold outreach on X and Telegram with self-written campaign copy, then personal onboarding of converted traders.
- Investigated suspicious onchain activity with block explorers; flagged malicious domains and wallet patterns for blocklisting.
- Built an affiliate program with high-profile crypto names and advocated for referral/cashback mechanics; automated moderation to clear routine spam.

Pavlok — Head of Customer Support Jul 2016 – Apr 2025

- Built support from solo IC to a 24/7 team of 6 holding 95%+ CSAT on thousands of tickets a week.
- Designed Intercom automations that cut first response times from hours to under 30 minutes.
- Translated user reports into firmware and hardware bug tickets with engineering.

Casa Selva — Co-Founder Jul 2017 – Mar 2022

- Co-founded a D2C skincare brand and scaled it from zero to placement in Sephora Mexico; featured in Vogue and Harper's Bazaar with no paid media.
- Owned social and content strategy end to end plus an organic ambassador program; managed manufacturing, supply chain, retail partnerships, and CX.

SKILLS

Support ops — Intercom automation, escalation design, CSAT/SLA management, 24/7 team building & hiring

Technical — onchain investigation (block explorers, transaction logs), browser devtools, API/log debugging, bug reproduction

AI tooling — Cursor, Claude Code; internal tools and workflow automation

Community & growth — Discord, Telegram, moderation automation, KOL outreach, affiliate & ambassador programs; active network of English-speaking Solana/ETH traders and KOLs
