Builds and runs support orgs for AI and crypto companies. Took Pavlok's from a solo inbox to a **team of 6** on 24/7 coverage, holding **95%+ CSAT** at **thousands of tickets weekly**. Eight years of it, the last three in crypto on Tier 3 escalation and incident response. Trading onchain since 2017, building daily with Claude.

■ EXPERIENCE

Independent — Building

Tulum, MX · Remote

DEC 2025 – PRESENT

- Shipped **ats.fyi**, a job board pulling live roles from the Ashby, Lever, and Greenhouse APIs across **200+ companies**. Built solo with Claude.
- Building Touchline, a Chrome extension that overlays FPL analytics onto the live site.
- Rebuilt sundaysociety.xyz as an interactive desktop, with support case studies at /pavlok, /slingshot, and /magic-eden.

Business Development Manager — Magic Eden

Remote

MAY 2025 – NOV 2025

- Migrated Slingshot's user base into Magic Eden post-acquisition with **no drop in ticket resolution** through the transition.
- Final escalation point for complex onchain disputes, diagnosing with block explorers and transaction logs before coordinating fixes with engineering.
- Monitored community channels for scams and impersonation attempts during a high-visibility integration.
- Kept ecosystem partners, exchanges, and influencers engaged through the handover.

Community Manager — Slingshot Finance

Remote · acq. by Magic Eden

MAR 2023 – MAY 2025

- Led response through **security incidents** including an executive account compromise and phishing campaigns, with user funds onchain and every transaction irreversible.
- Served as **Tier 3 escalation**, working transaction logs, browser devtools, and user-reported errors into reproduction steps engineering could act on.
- Owned Discord, Telegram, and X, including moderation workflows with keyword filters and auto-actions that cleared routine spam without manual review.
- Built a KOL and affiliate program from scratch, bringing recognized names in the space into the funnel during a product pivot.

Head of Customer Support — Pavlok

Remote

JUL 2016 – APR 2025

- Built the support function from scratch, growing from solo IC to a **team of 6** with **24/7 coverage** across time zones.
- Held **95%+ CSAT** on **thousands of tickets weekly** throughout tenure.
- Cut first response from hours to **under 30 minutes** with Intercom triggers, macros, routing, and escalation rules.
- Ran **Fin AI** in production, then moved back to rules-based routing when it stopped paying for itself at volume.
- Handled billing directly in Stripe (refunds, reversals, subscriptions) and partnered with engineering on firmware debugging.

Co-Founder — Casa Selva

Tulum, Mexico

JUL 2017 – MAR 2022

- Co-founded a D2C skincare brand and scaled it to retail placement in **Sephora Mexico** and a Nordstrom pop-up in the US, with press in Vogue and Harper's Bazaar.
